Hey Don,

I am in Houston at the facility fire and then moving to Deer Park to that Terminal Fire. I am not really easily available.

I don't want this procedure to be complicated for (b) (6) as he is 74 years old. I don't think we should burden him to get other estimates since we have gotten estimates that are much much higher than what his plumber can do then we should be able to use are estimates as market research and determine that this is a reasonable cost.

We do need to pay him for the plumber cost for the cleanout performed on or about 3/17/19. I hope that is in the works.

Thanks
 Gary Moore

Subject: New DWO

Good afternoon, Gary. Attached please find an updated DWO for the month of April 2019. I do not want to put the burden on him to get

On a related punch-list note, we've been looking at ways to pay (b) (6) for his sewer repairs and eventual replacement. If approved, this would directly compensate the owner but would require he sign a "Resident Release & Acceptance Form" that we have previously used on a residential cleanup for EPA in Utah. If this is a workable approach, he would not have to submit invoices or receipts, although the payment to him will need to be based on estimates he provides. I don't think it has to be writing, just that he certifies it as being correct.

This release was written to require a waiver for any subsequent claims and release EPA Region 6 and ER for any future claims. I'm sure we will balk but we can write the scope of the agreement to specific compensation he's seeking and not make it overly broad.

He'll need to send us the following:

- Signed release form; and

A completed W-9.

Angela and I are still working this out internally but should have an update on when we can begin paying the owner once the paperwork listed above is filled out and returned to us.

Let me know if you have any questions,

Thanks,

Don
